Mr. Paul Collins
Skyline Software Systems, Inc.
14155 Newbrook Drive
Chantilly, VA 20151

Dear Mr. Collins:

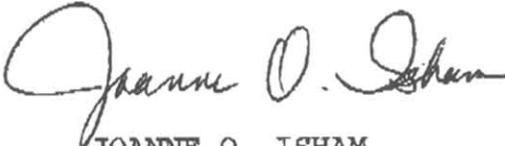

I appreciate your efforts to assure the safety and security of the TerraExplorer software produced by Skyline Software Systems, Inc. Since I received your letter of April 27, 2004, my team reviewed your Certificate Pertaining to Foreign Interests as well as the additional information you provided concerning the ownership and maintenance of the source code, development of new capabilities, and the geographic location of maintenance and development activities.

Based upon the information you provided, as well as additional risk mitigation initiatives taken by this Agency, the National Geospatial-Intelligence Agency (NGA) endorses the continued use of Skyline TerraExplorer software on its systems. This determination will be periodically reevaluated as new versions of TerraExplorer are introduced to the market.

Please notify NGA promptly upon any change in Skyline's (1) foreign interests, (2) ownership of the source code, (3) maintenance of the source code and development of new capabilities, and (4) geographic location of such maintenance and development.

Should you have any questions or desire additional detail, please contact Ms. Laura Snow, Deputy Director, InnoVision Directorate, NGA, (301) 227-7376. We look forward to continuing our relationship with your firm.

Sincerely,

JOANNE O. ISHAM
Deputy Director
